

Santiago, Chile  
May 23 – 27, 2006

**EXPOMIN** is one of the largest mining trade shows in the world and the largest in Latin America. This international fair fosters the transfer of leading-edge technologies that promote the development of mining industry production processes and associated service companies. **EXPOMIN** is the ideal event to introduce the latest equipment, machinery, technologies and supplies to the Chilean and Latin American mining industry. The last show boasted 2,500 exhibitors from 23 different countries and 40,000 professional visitors from around the world.

Exhibition areas include

- Equipment, machinery, tools
- Mining engineering, erection and construction svcs
- Drilling and exploration
- Services for mining processes
- Industrial electric power
- Industrial safety, safety equipment and clothing
- Laboratory Services
- Engineering Consultants

**Participation Fee      \$750**

*(All travel, food and incidental expenses are the responsibility of each participant. Hotel accommodation may be available through the VEDP on a first-come, first-served basis with pre-payment.)*

*VEDP is a state government organization responsible for increasing the export of Virginia's goods and services. We require reimbursement of booth rental expenses. We do not profit from these efforts. Charges are for airfare, hotel and other items are at your own expense. We will gladly assist with these arrangements at your request. VEDP reserves the right to cancel participation in this event if there is insufficient enrollment by Virginia companies. VEDP's liability is limited to a full refund of the amount paid by the Virginia company less any cancellation charges levied by the organizer(s).*
